What Our MINI Service Customers Are Saying Paul M. Germantown, MD As always, MINI service is top notch at Scandinavian. I've typically dealt with Clyde when I've brought in my car, he explains issues clearly and what a proper course of action should be. They are always willing to go above and beyond to remedy problems. I feel much more comfortable going to Scandinavian for service work than going to one of the local Mini dealerships. Chris S. Beltsville, MD My alarm was going off. They diagnosed this and gave me a price over the phone. I went in and they repaired it while I waited. Lewis H. Potomac, MD I had a complex fix it problem with my 2007 MINI involving the engine timing chain. Others had already tried to fix the problem by incorrectly interpreting the check-engine-light codes. Through past experience and diligence, Scandinavian solved the problem and reset all the error codes. They are meticulous "Sherlocks."
